Orval,

We are working through this process with some new POCs at FBIHQ. But, I recall you stating that the NDA was the only document the City has with respect to this Open Records Act request, correct? If so, it appears that FBIHQ has no objections to it being released in the same format as previously released. Please confirm with us; and let us firm that up on our end as well before you take any action. But, I think we are heading towards some resolution on our end. See below e-mail chain. Thanks a lot.

Have a good week-end! Lee.

Joe and John,

Joe, I left you a message. John, I forgot you handled this matter last time; or I would have called you (I didn't see you contact info on OGC's web-site readily).

Anyway, OC Division again requests your help and guidance. Oklahoma city Attorney Orval Jones is handling an Open Records Act request targeting our NDA regarding use of cell site location equipment.

It appears John responded to Orval last February and advised that the FBI did not have any objections to disclosure. As I recall, we fought this to a limited degree by advising the NDA is property of the FBI, was in itself sensitive LE information, etc. Anyway, it appears it was released the last time.

Please feel free to correspond to Orval directly, but please keep us in the loop so we can keep our Executive Management apprised.

Orval,

Has this been resolved? I just wanted to follow-up with you. It appears the FBI has no objections to you releasing what you did the last time - the NDA. And, as I understand, that is the only document in the possession of Oklahoma City. Is that right?

Thanks a lot.

Orval,

We are working through this process with some new POCs at FBIHQ. But, I recall you stating that the NDA was the only document the City has with respect to this Open Records Act request, correct? If so, it appears that FBIHQ has no objections to it being released in the same format as previously released. Please confirm with us; and let us firm that up on our end as well before you take any action. But, I think we are heading towards some resolution on our end. See below e-mail chain. Thanks a lot.

Have a good week-end! Lee.

(U//FOUO - Deliberative Process Material) Hi, Lee. I'm unclear what's being asked of us. If it pertains simply to the NDA, as you suggest, and they previously disclosed it, they should disclose it in the same form (e.g. redacted) again. Is there more to the inquiry?

Joe and John,

Joe, I left you a message. John, I forgot you handled this matter last time; or I would have called you (I didn't see you contact info on OGC's web-site readily).

Anyway, OC Division again requests your help and guidance. Oklahoma city Attorney Orval Jones is handling an Open Records Act request targeting our NDA regarding use of cell site location equipment.

It appears John responded to Orval last February and advised that the FBI did not have any objections to disclosure. As I recall, we fought this to a limited degree by advising the NDA is property of the FBI, was in itself sensitive LE information, etc. Anyway, it appears it was released the last time.

Please feel free to correspond to Orval directly, but please keep us in the loop so we can keep our Executive Management apprised.

We had not heard from anyone except from you. We will release the two-page nondisclosure agreement. If other issues arise, I will notify Trey.

Orval Jones

Orval,

Has this been resolved? I just wanted to follow-up with you. It appears the FBI has no objections to you releasing what you did the last time - the NDA. And, as I understand, that is the only document in the possession of Oklahoma City. Is that right?

Thanks a lot.

What would we be redacting? We released the two pages unredacted last time.

Orval,

We are working through this process with some new POCs at FBIHQ. But, I recall you stating that the NDA was the only document the City has with respect to this Open Records Act request, correct? If so, it appears that FBIHQ has no objections to it being released in the same format as previously released. Please confirm with us; and let us firm that up on our end as well before you take any action. But, I think we are heading towards some resolution on

our end. See below e-mail chain. Thanks a lot.

Have a good week-end! Lee.

(U//FOUO - Deliberative Process Material) Hi, Lee. I'm unclear what's being asked of us. If it pertains simply to the NDA, as you suggest, and they previously disclosed it, they should disclose it in the same form (e.g. redacted) again. Is there more to the inquiry?

Joe and John,

Joe, I left you a message. John, I forgot you handled this matter last time; or I would have called you (I didn't see you contact info on OGC's web-site readily).

Anyway, OC Division again requests your help and guidance. Oklahoma city Attorney Orval Jones is handling an Open Records Act request targeting our NDA regarding use of cell site location equipment.

It appears John responded to Orval last February and advised that the FBI did not have any objections to disclosure. As I recall, we fought this to a limited degree by advising the NDA is property of the FBI, was in itself sensitive LE information, etc. Anyway, it appears it was released the last time.

Please feel free to correspond to Orval directly, but please keep us in the loop so we can keep our Executive Management apprised.

Subject: Cell site simulator info request

Hi, Capt. Balderrama. Attached is an open records request that gives some more information about what I was asking for. Thanks!
